Medical Director

Steve Hall, RS, MS  
Health Officer

## PRESS RELEASE FOR LOCAL MEDIA

**To: Local News Media**

**From: Central Michigan District Health Department**

**RE: First Death from COVID-19 in Jurisdiction**

**Release Date: March 29, 2020**

The Central Michigan District Health Department (CMDHD) received notification late last night (March 28, 2020) of the first local death attributed to COVID-19. The individual was an elderly male who was admitted to McLaren Central Michigan in Mount Pleasant on March 21st with severe symptoms.

“We wish to express our heartfelt sympathies to the family who have lost their loved one,” said Steve Hall, Health Officer at CMDHD. “This is a tragic reminder of how serious a threat COVID-19 is to our community.” CMDHD reminds everyone that in this difficult time it is critical that we protect each other, support each other, and work together to slow the spread of this virus. It’s important for residents to be aware of the virus and the efforts necessary to prevent its spread.

As this situation continues to evolve, we ask all of our residents to take the appropriate precautions. Strong community mitigation and prevention measures are already in place, and we urge residents to continue to follow recommendations:

- Stay at home. Do not leave home except for essential tasks such as getting groceries or seeking medical care.
- If you must go out, stay at least 6 feet away from others and avoid any gatherings.
- Wash your hands frequently for at least twenty seconds.
- Avoid touching your face.
- Disinfect commonly touched surfaces.
- Check on others. Call your loved ones and neighbors who are most at risk and see how they are doing. If they require something essential, see how you can help.
