- On the Veterans Committee meeting, noting the deaths of the following Veterans: Joseph Kostick, Tobacco Township, Korean War and John Gillis, Clement Township, Korean War. The VA has also made a press release on a new Rx Telephone Scam, stating that all Vets should be careful in releasing credit card information for Prescriptions over the phone.
- That there will be a benefit spaghetti dinner for Rick Aldrich from 12:30 to 2:30 Sunday, October 11<sup>th</sup>. Commissioner Walters asked that everyone come out to support the family.

    - a.) Include the City Manager and/or Township Supervisors in all calls made to local businesses, whether for retention, expansion, or any business type meeting.
    - b.) Acknowledge the fact that although the EDC was a wonderful help with the grants and loans that many people pulled them together. For example, the Beaverton dam repairs in which Kerry Posey rewrote the grant three times, the fuel farm at the Airport was a co-operative grant writing project, and the USDA loan for the Beaverton dam. In the reports to the County Commissioners, please include this information. EDC did not and cannot do it alone.
    - c.) It appears to Beaverton City Council that the EDC is all about Gladwin City. We know that is not the case. Remember that Gladwin County also includes the Area south of Howard Road.
    - d.) There still seems to be hard feelings about how the Loose Plastics move came about. Yes, we are glad that the business remained in the county. However, Beaverton City was stuck with the grant payments for months which the business owner was supposed to pay. Let us just be very transparent as to what is occurring.
    - e.) a more equitable way of assessing the dues to the members. We do not feel that \$1,000 Beaverton is equal to the \$1,000 charged to Gladwin. Yes, we are both cities, but our SEV and tax base is much lower than Gladwin City, and many of the Townships. Is there a fairer way of dues assessment?
    - f.) The City Manager and Council members want to receive the monthly bullet updates sent out by Frank Starkweather.

In closing, Beaverton will pledge to support the Gladwin County EDC. Progress cannot occur without a concerted effort of all of us. We know that we must work together to continue commercial, educational, and recreational growth in the county. We all benefit from an active EDC that supports the entire county. It is time to put our divisions aside and work as a cohesive unit called Gladwin County.

**Budget Workshop**

Commissioner Rhode opened the budget workshop with a list of reductions by department and revisions made to the budget since last meeting with the Board.

Discussion.

Mike Greer commented that there was not appropriation to the 231 fund included in the budget. Commissioner Rhode stated that the budget committee needed to sit down with the Courts and that no decisions on that budget have been made.

Denise Hall questioned if the revenue from the townships was taken out of the budget for the non-mandated services that her department would be sending back to the townships for them to handle due to the cut in her office. Commissioner Rhode commented that the revenue had not been adjusted.

Commissioner Walters clarified that the part-time janitorial position was upon retirement of the employee that was there. Commissioner Rhode confirmed that the replacement to the position would be filled with a 25 hour per week position.

Aaron Miller came before the Board with information shared with him in meetings held between the Clerk, Treasurer, Judges, Sheriff and himself in regards to the condition of the budget. Mr. Miller stated that the Board is looking at the budget based on General fund revenues and not looking at other funding areas, commenting that the 516 Unallocated fund has been consistent over the past few years, and that the health costs for 2010 are not released but being forecasted at 23% at which the budget contains a 12% "buffer" toward those increases. Discussion. Commissioner Whittington stated that he has now heard two separate things and that figures given to him are not the figures that has been given to this group. Commissioner Whittington further commented that if the County is as well off as what Mr. Miller is stating that the Budget committee needs to start their budget process over. Discussion. Commissioner Rhode commented that the budget should be in good shape at the end of the year, however each year the Count has to begin borrowing earlier and earlier and that the budget needs to begin to carryover funds into 2010. Mr. Miller then commented that he thought the Board has done a good job in their efforts in putting together a budget, but to slow down and look at all the options, noting that the budget doesn't need to be passed until 12-31-2009.

Commissioner Posey commented that she is confused on the budget figures, wondering how the committee has come to a balanced budget.

Commissioner Smith stated that this budget process has been very interesting, noting that there are many things that need to be considered. Commissioner Smith also stated that she believes it is a benefit to the Board to start the budget process early, noting the more input and help by everyone enhances the budget outcome. Discussion.

Denise Hall, Equalization, commented that this budget is not the result of taking the opinions of the department heads, noting that she has given the committee option that they have not taken. Ms. Hall stated that there is non-mandated work in her office that will not be able to be completed with an employee working 25 hours/week.

Commissioner Whittington stated that the committee hears all the department heads say the same thing, "If you cut my staff I will not be able to do the work", commenting that many other counties are making cuts and doing what needs to be done to balance their budget, and that Gladwin County can't seem to get their side done. Commissioner Posey stated that she does not fee that any more work needs to go back to the townships.

Commissioner Walters stated that he has always been led to believe in the past that there was no money, and he is now being told the same thing. Commissioner Walters believes that the trust is gone and that it contributes to the problem. Commissioner Rhode stated that he would like to see the figures that the group reviewed. Commissioner Posey also stated she would like to see a report. Mr. Miller commented that he would get those figures to the Board.

*The Board concluded the workshop at 11:20 a.m*
