Mr. Schwab has attended only 2 meetings since his appointment early this year.
- On attending the **County Parks and Recreation Committee** on 11-19-09, commenting on the following: Nine members were in attendance. The Parks and Recreation Committee would like to have the following clarified in the **Use Lease Agreement** with the Board of Commissioners: 1). Paragraph 2: "lands are approximately 160 acres in area". 2) Item number 3: The small shed currently housing the brush-hog, would be provided for the Trails Association to house the trail groomer. *Motion by Commissioner Smith to adopt the User agreement with the mentioned "technical" changes. Motion supported by Commissioner Reid. Ayes carried, motion passed.* Commissioner Whittington voting no. The Committee also discussed plans for the future and those committee members responsible for discovering ways to implement those plans volunteered to come

Commissioner Smith then stated that the Parks and Recreation committee will meet the 3<sup>rd</sup> Thursday of each month at 5:30 p.m. in the MSU office, and that she would like the Board Secretary to include this meeting date and time with the weekly posted meetings that are circulated to the department heads and elected officials.

**Commissioner Posey reported:**

- On attending the MSU meeting in Gaylord on November 12<sup>th</sup>, noting the following topics were discussed:

In response to budget cuts for 2010 MSU are having meetings throughout Michigan to collect ideas and suggestions from Counties, to help make appropriate measures to continue selected program operations.

There were approximately 20 County Commissioners at the site in Gaylord. Many of them stated they have made deep cuts to their current extension departments, including staffing and had many concerns on how these additional cuts will impact that department.

The current tentative plan is to split upper and Lower Michigan into 9-14 districts. (See attached map) Each district will have a Director to oversee administrative duties and an Educator will oversee individual Counties.

We may need to consider establishing a district Council made up of Commissioners and Community members, a Commissioner and one Community member from each County. Our district with seven Counties, constitutes a fourteen-member board.

Currently the position of Director is funded by MSU. The change of title to educator for Counties will change how this position is paid. It is not completely clear and needs further clarification.

The most significant change will be to focus on four program areas, which will be determined by demographics and will reduce the funding necessary to continue serving each district.

Posting and filing the District Coordinator positions will be done by Feb-March of 2010.

An agreement with County Commissioners is slated for July 2010 at which time the transition is planning to be completed.

Commissioner Carl then stated that two of his four townships opted into the Uniform Addressing Committee (Clement and Gladwin Township voted down). Commissioner Rhode stated the cost has been reduced from \$3,000 to \$1,500 and there is no deadline to enter at this point. Commissioner Carl then asked if the payment to enter into the Uniform Addressing is a one time fee, and will townships get the software if they have not opted into the GIS program. Commissioner Rhode stated that it is a one time only payment. Gina Conrad stated that all Townships that are part of Uniform Addressing will receive the software regardless of their belonging to GIS.

Commissioner Carl then voiced his concerns on the 211 report and the funding of church and business groups, but not individuals. Commissioner Rhode commented that areas are being corrected and new agencies are being added to assist with individual requests. Discussion. Ayes carried, motion passed.*

Commissioner Rhode then commented that the Judicial Management fund was \$64,173.00 in the red and that an additional appropriation may be needed before month end. Commissioner Rhode stated that he has concern of the costs and that he had been in touch with Attorney Jacobson who has concerns. Commissioner Carl commented that if Attorney Jacobson has concerns that he should appear at the next Data meeting so that those concerns can be addressed. Commissioner Posey stated that the Data committee is working on a five year plan and this contract is a part of that. Discussion.

### **BUDGET WORKSHOP**

Chairman Whittington turned the meeting over the Commissioner Rhode to handle the 2010 budget review.

Discussion of meeting with Dave Tanney and his respective union representatives and the letter of understanding for the new insurance program for 2010. Commissioner Reid stated that he would like to see that the Board agree on this budget today then a letter be sent to the unions to accept the insurance plan with “no strings attached”. Commissioner Whittington stated that Attorney Stoker has informed the union representatives that if there is no cooperation now, then the insurance will have to be dealt with during contract negotiations. Commissioner Carl asked that Attorney Stoker provide the Board with an update.

Commissioner Rhode then reviewed the General Fund revenues and expenditures. Commissioner Smith inquired of the increase to the Computer Software Support line of \$68,330.00. Commissioner Rhode explained that there is a \$50,000 software upgrade that needs to be handled next year for the accounting software and that the funds are

being paid for from the Tax Reversion fund. Discussion. Commissioner Rhode commented that the 371 Construction Codes budget and the 410 Zoning budget are still under discussion based on the response received by the Townships and that after review the Construction Codes department may go to two full time and one part time from three full time clerks. Commissioner Posey asked if the committee was still looking at the \$500.00 budget for each department's travel line. Commissioner Rhode stated that it was budgeted for mileage, but some departments have training costs included in their travel as well. Discussion. Commissioner Reid commented that Veteran burial costs may need to be increased in 2010, noting that expense is difficult to estimate. Comments from Department Heads in attendance. Commissioner Rhode stated that this budget will be presented for adoption contingent on the insurance proposal that has been sent to the unions. ***Motion by Commissioner Rhode, supported by Commissioner Reid, to set a Public hearing to adopt all fund budgets on December 8, 2009 at 8:45 a.m.*** Commissioner Carl asked if the Board needed to wait for union response before adopting the budget. Commissioner Reid noted that this budget is contingent in part of the unions' acceptance of the insurance proposal and would have to be amended in January if they are not willing to participate. Commissioner Posey asked if the appropriation from unallocated to the Judicial Management fund still left the County with their 10% fund balance. Commissioner Rhode stated that it would. Discussion.
