Motion to approve May 17,2023 minutes by: Rick Dvorak, Seconded by Terry Walters. All in favor.  
Motion carried.

Received and file account ledger. Ron Taylor asked if we look pretty good with the money, we have taken in with what we have spent? Mike stated yes. Ron also commented that Lucy has been updating the assessments. Lucy also stated that this assessment doesn't need to be addressed at this time.

## **NEW BUSINESS:**

Mike Rajt called Rick Buteyn from Progressive AE to get a report on the lake. Rick gives an overview on lake. He surveyed the lake on June 19<sup>th</sup>. Rick talked about the new Milfoil that was marked on the map for treatment. Also noted that the algae in the south bay was a little heavier than it was last week. Not a ton of Wild Celery growing yet. Will keep an eye on since mechanical harvesting has been discussed. There is a small area of Wild Celery treatment near the shore. Can only treat near shore if less than 5ft deep. Harvesting attentive for July 19-21. Planning on surveying July 18<sup>th</sup> to get a better idea of how things are progressing. Expecting PLM to treat next week for Algae and Milfoil areas. Most of the 1<sup>st</sup> treatment was successful. There was one area that required retreatment. Western portion of the lake. The 2nd Phoslock treatment sticking with the original areas that was talked about. There was talking about switching some of the Phoslock treatment to Turtle Bay. Concerning how the algae is looking in South Bay, they should keep it in one area for now. Mike agreed with Rick in regard to South Bay.
